

classic exhibits

Classic Exhibits desire to be different has been a powerful motivation

to drive us toward greater innovation in the trade show industry ■

More functional like streamlining set up time ■ More practical

by eliminating channel bars ■ More forethought like eliminating

breakable parts ■ More competitive like reducing the cost to ship

an exhibit ■ More ingenuity by making two easy to use, case to

counter conversion kits ■ More creative like simplifying the entire

purchasing/set up process ■ The Classic Quadro pop up is truly an

exhibit that makes exhibiting predictable

Never underestimate the power of a classic.

classic exhibits

quadro

Some companies spend a lifetime trying to duplicate the creations of their competitors. Classic did just the opposite. Rather than manufacture a product that resembles others, our is an original. It's not just another flimsy pop up, but is know in the industry as the pop up that will "never need a field repair kit". Even though you never see the frame after set up, there's always the peace of mind of knowing that it "will set up".

- Strongest frame in the industry
- One or two case options for packaging
- Fully accessible
- 4 stylish case to counter kits

The industry's first pop up that will **NEVER NEED REPAIR**

75lb Monitor

### packaging

The Quadro can fit into one large, or two small transport cases. With wheels built into each case, transportation is never a problem.

### gallery

The Quadro is the perfect match for your exhibit needs. Explore the gallery of Quadro systems and learn how stylish quality can be.

shelving may be configured as level or slant

lifetime frame that supports up to 75lbs in any quadrant
