

AERO

Using Your Setup Instructions

The Aero Table Top Setup Instructions are created specifically for your configuration. They include an exploded view of the frame which is sequentially numbered. We encourage you to study the instructions before attempting to assemble your exhibit.

Connections are kept very simple: no tools. Everything assembles with push-button connectors and pre-connected horizontal sections.

Cleaning and Packing Your Display

- 1) Use care when cleaning aluminum extrusion or acrylic inserts. Use only non-abrasive cleaners.
- 2) Retain all packing material. It will make re-packing much easier and will reduce the likelihood of shipping damage.

Connections are made by holding the button down and sliding the red tube into opposing tube until the connection is made. To disassemble push button and pull or twist extrusions apart.

Note: Attaching Graphics
Attach Graphics to Velcro by wrapping the Graphic over the Top of the Upper Horizontal and under the Bottom of the Lower Horizontal

Steps:

- 1) Attach base plates to frame using screws and a phillips head screw-driver.
- 2) Assemble #'s 3 thru 6 as shown.
