

WHEN DISASSEMBLING ALUMINUM EXTRUSION, TIGHTEN ALL SETSCREWS AND LOCKS TO PREVENT LOSS DURING SHIPPING

# visionary™ DESIGNS

## Using Your Setup Instructions

The Visionary Designs Setup Instructions are created specifically for your configuration. They are laid out sequentially, including an exploded view of the entire display, and then a logical series of detailed steps to assemble the main structure and components. We encourage you to study the instructions **before** attempting to assemble your exhibit.

Each page reminds you to tighten the setscrews after disassembling your exhibit to prevent loss of the locks and setscrews (see below in RED). This is **VERY IMPORTANT**.

## Cleaning and Packing Your Display

- 1) Use care when cleaning aluminum extrusion or acrylic inserts. Use only non-abrasive cleaners.
- 2) When cleaning laminate inserts or countertops, use mild cleansers and a soft material such as cotton.
- 3) Keep all display components away from extreme heat and long exposure to sunlight to avoid warping and fading.
- 4) Retain all packing material. It will make re-packing much easier and will reduce the likelihood of shipping damage.

**The Tool**

Most Visionary Designs exhibits can be assembled with the supplied Hex Key Tool. Occasionally, a flat head screwdriver may be required.

**Typical Connection**

Most horizontal extrusion connections have a patented expandable lock. This lock inserts into the groove of an opposing extrusion. Tightening the lock with the Hex Key Tool expands the lock and creates a strong positive connection.

**Typical Connection (cont'd)**

**Numbered Label**

Each extrusion contains a numbered label which corresponds with setup instructions. The label is located within a groove of the extrusion (when possible). With Visionary Designs the labels contain Black numbers unless otherwise specified.

**Horizontal Inline Connection** (remove only one setscrew)

Remove only (1) setscrew when disassembling. Replace setscrew in extrusion after assembling it. Before packing, replace setscrew in extrusion to avoid losing it.

**Base Plate Connection**

Attach base plate to round or square vertical extrusion using the bolt provided. Be careful not to strip the threads.

**Vertical Connection**  
(remove only two setscrews)

When vertical extrusions are packed in portable cases rather than crates or tubs, they must be broken down into smaller sections which then require assembly.

Remove only (2) setscrews when disassembling. Replace setscrews in extrusion after assembling it. Before packing, replace setscrews in extrusion to avoid losing them.

**WHEN DISASSEMBLING ALUMINUM EXTRUSION, TIGHTEN ALL SETSCREWS AND LOCKS TO PREVENT LOSS DURING SHIPPING**

Item	Qty.	Description
1	2	Base Plate
2	1	42" h Lower Square Vertical Extrusion
3	1	42" h Upper Square Vertical Extrusion
2a	1	42" h Lower Square Vertical Extrusion w/ A10 Clamps Attached
3a	1	42" h Upper Square Vertical Extrusion w/ A10 Clamps Attached
4a/4b	1/1	45" w Horizontal Extrusion
5a/5b	1/1	45" w Horizontal Extrusion
6/6a	1/1	2.5" h Angle-Cut Vertical

Steps:

- 1) Attach vertical extrusions [2 and 2a] to base plates [1].
- 2) Attach upper vertical extrusions [3 and 3a] to lower extrusions [2 and 2a] using connection bar [b].
- 3) Connect horizontal extrusions [4a to 4b and 5a to 5b] together using connection bars [a].
- 4) Attach horizontal assemblies [4a/4b and 5a/5b] between vertical assemblies as shown.
- 5) Attach angle-cut verticals to top of assembled backwall where indicated.
- 6) Apply graphic to back of assembled backwall.
- 7) Attach light to top of assembled backwall.

STAR indicates location of knobs on BACKSIDE of unit.

**Graphic Attachment**  
Apply graphic to back of assembled backwall.

**WHEN DISASSEMBLING ALUMINUM EXTRUSION, TIGHTEN ALL SETSCREWS AND LOCKS TO PREVENT LOSS DURING SHIPPING**

866.652.2100

**Monitor Mount Attachment**

Attach monitor mount back plate to connectors using screws provided.

**Wing Attachment  
(If accidentally removed)**

Slide connector on back of A10 clamp into groove of extrusion.

When desired location is found, tighten set screw to secure.

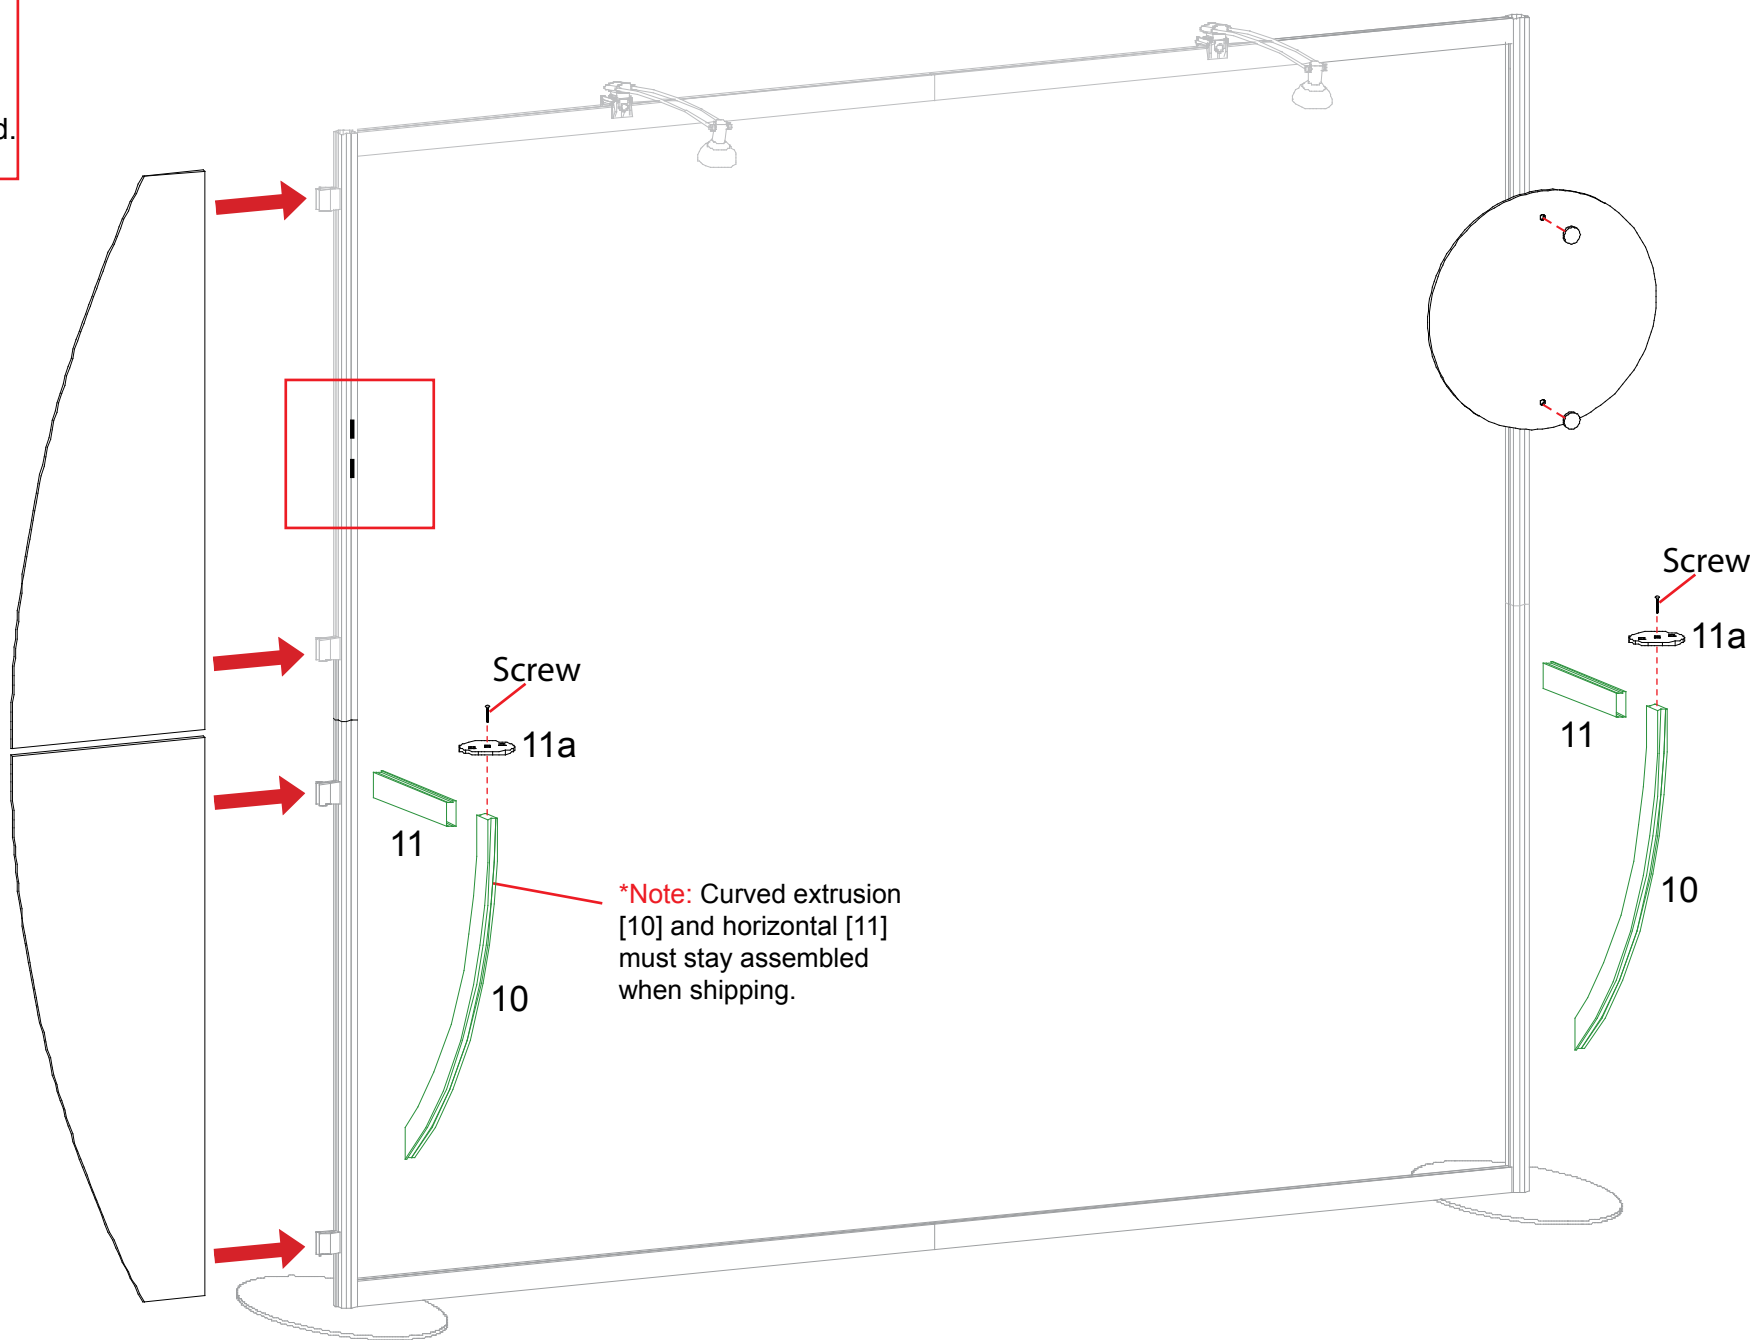

Tighten knob to secure shelf in place.

*\*Note: A10 clamps must stay attached with verticals*

Item	Qty.	Description
10	2	30.2" Curved Extrusion
11	2	12.184"w Horizontal Extrusion
11a	2	Flange Plate

**Steps:**

- 1) Connect horizontal extrusion [11] to curved extrusion [10].
- 2) attach assembled counter support [10/11] to vertical where indicated.
- 3) Attach flange plate [11a] to top of curved extrusion [10] as shown.
- 4) Attach counter atop support, see counter top attachment detail.
- 5) Repeat steps for additional counter.
- 6) Attach wing panels to A10 clips.
- 7) Attach monitor mount to backwall where indicated.

**Graphic Attachment**

Slide connector on back of standoff barrels into groove of extrusion and twist to secure in place. Secure graphic to standoffs using screw caps.

**Counter Top Attachment**

Insert screws located on underside of counter into holes on flange plate and secure with wing nuts.

Part Number	Qty	Description
12	4	38" h Vertical Extrusion
13/13a	2/2	12" w Horizontal Extrusion
14	2	25" w Horizontal Extrusion

Steps

- 1) Attach horizontal extrusions [13 and 13a] between vertical extrusions [12], placing inserts between horizontals.
- 2) Attach curved horizontal extrusions [14] between vertical extrusions [12], placing insert between curved horizontals.

Steps (Cont'd):

- 3) Place shelf atop lip of extrusions.
- 4) Set counter top atop assembled base.
