

At Classic Rental Solutions, our mission is simple. To produce the highest quality rental exhibits and experiences in the industry. No exceptions.

We stage, inspect, and photograph every order before shipping. We pack the exhibit very carefully. We include staging photos, packing photos, and setup diagrams with every shipment. And we're available anytime, day, night, and weekends for any questions from your I & D team. We understand that a quick call might save your client an hour or two of extra labor.

We want your customers to be happy, VERY HAPPY. It's important to us, to them, and to you as their vendor.

For us, it doesn't end there. **When the rental is returned undamaged and carefully packed, it allows us to keep costs down**, which translates into extra savings for you.

We ask that you return the rental in the same condition that it was shipped. And when you do, **we'll reward you each and every time.**

Classic RENTAL REWARDS Program

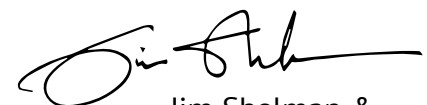

- Earn a **2% rental credit** on your next Classic Rental for **an order returned without missing components or damage** (one credit per future order)
- **Get 15% off** your next rental after six rental return credits
- **Win exciting prizes** in our semi-annual Rental Rewards drawing. Your name will be entered for every Rental Return Credit you receive. (Drawings to be held in December and June)

The Rental Rewards program begins immediately on all rentals, no size or order exceptions.

Explain to your I & D team that they can help you save money on your next rental by being careful during the installation & dismantle and when repacking the exhibit. When they understand they could help save you some money, they'll take a little extra care to avoid damages.

Give us a call if you have any questions. And **start earning your rewards NOW** on the most innovative rental exhibits in the industry.

We sincerely appreciate your continued rental business!

Jim Shelman &
the Entire Classic Rental Solutions Team
