

## General Setup Instructions

- Read entire setup instruction manual prior to unpacking parts and pieces.
- The setup instructions are created specifically for this configuration.
- Setup instructions are laid out sequentially in steps, including exploded views with detailed explanation for assembly.

## Cleaning \& Packing

- For Cleaning Metal, Plex, \& Laminate Parts: Use a MILD NON-ABRASIVE cleanser and soft cloth/paper towel to clean all surfaces.
- Keep exhibit components away from heat and prolonged sun exposure.
Heat and UV exposure will warp and fade components.
- Retain all provided Packing Materials. All provided packing materials are for ease of repacking \& component protection.

Engaged Lock

ALL CONNECTIONS MUST BE TIGHTLY SECURED

## Straight Connection

When assembling frame, first attach all straight connectors, then attach corner connectors.

1) Place extrusions end-to-end.
2) Loosen all knobs, then slide straight connector across the seam of extrusions.
3) Tighten all knobs to secure connection.

Slide connector across seam of extrusions.
Tighten all knobs.

All knobs must be tightened securely to ensure a proper connection.

## Disassembly

1) Loosen all knobs.
2) Slide connectors off of one extrusion
3) Tighten knobs to prevent loss during packing \& shipping.

Keep straight connectors in groove of extrusion. Do not remove connectors during disassembly

## Corner Connection

1) Loosen knobs, then slide vertical extrusions onto corner connectors of lower horizontal extrusion.
2) Slide corner connectors of upper horizontal extrusion into grooves of vertical extrusions.
3) Tighten all knobs to secure connection.

## Disassembly

1) Loosen knobs on vertical extrusions.
2) Slide the vertical extrusions off of corner connectors on lower and upper horizontal extrusions.

Upper Horizontal Extrusion

Lower Horizontal Extrusion

Adjust connectors if necessary to prevent gaps in connection.

Assemble frame flat on ground.

Keep corner connectors attached to horizontal extrusions.

## Steps:

Refer to the Tool-less Frame Assembly general information page.

1) Assemble vertical extrusions [1-2], [3-4], [11-12] \& horizontals [5-6-7], [8-9-10] together, using Tool-less Spline Connectors labeled $[\mathrm{X}]$ \& [Z]
2) Connect vertical assemblies [1/2], [3/4] between horizontal
assemblies [5/6/7], [8/9/10], using Tool-less Corner Connectors labeled [A].
3) Install Base Plates [13] to bottom corners of frame assembly
as shown. See Base Plate Attachment detail
4) Lift frame to upright position, then connect vertical assembly [11/12] between horizontal assemblies [5/6/7], [8/9/10] using Connection Lock w/ Knob.

## SEG Graphic Installation

It is important to first insert graphic into each alternate corner, then to the sides of the frame. If this is not done graphic will not fit into the frame correctly
insert corner A. Turn edge of graphic so silicon welt is perpendicular to face of graphic. Insert narrow side of welt with fabric to outside into the channel. Repeat for other side of this corner.

Step 2
Repeat Step 1 for opposite corner C, then insert corne B, followed by corner D, to
complete the installation of the corners.

Steps:

1) Apply SEG Graphic to front of assembled frame.

## Steps:

1) Attach Workstation Mounting Bracket to backwall vertical as shown.
See Workstation Bracket Attachment detail.
2) Assemble Workstation legs \& counter top to bracket. See Workstation Assembly detail.
3) Attach Lights to top of backwall as shown. See Light Attachment detail.
